Our ADSL Broadband 2+ plans will give you a more responsive and satisfying online experience with download speeds typically much faster than standard ADSL Broadband 1. Whilst speed is dependant on the quality of the phone line, the majority of our ADSL Broadband 2+ customers experience speeds in excess of 10Mbps with a small percentage experiencing speeds over 20Mbps, and up to 24Mbps.#

What are the Peak and Off-Peak times?

Peak times are from 7:00am – 11:59pm Midnight; Off-Peak times are from 12:00am Morning – 7:00am, Sunday to Friday. All 24 hours of Saturday are Off-Peak.

^v Each account has a separate Peering Allowance which is double the plans Peak Allowance eg 10GB plan has a 20G Peering Allowance.

Peering Allowance is WAIX in WA & PIPE in SA. Find out about WAIX at <http://www.waia.asn.au/waix/index.shtml> and PIPE at <http://www.pipenetworks.com/Peering/faq.shtml>

You will receive the maximum download speed supported on your line up to 24Mbps (ADSL2+ modem required). Actual speeds may be less due to a number of factors including network configuration, line quality and length, exchange type, member premises interference, traffic and hardware and software. All plans will be restricted to 64kbps once Download Allowance or Peering Allowance limit is reached for the balance of the current monthly billing period.
